

We know that most seniors have one thing in life that they always wanted to do or experience, however, for a variety of reasons they never had the time or the opportunity to do it. An important part of our relationship with our hospice patients is discovering what these long lost dreams might be.

Christian Care Centers Hospice created "The Bucket List" in an effort to bring dreams to life. This gives the patient and often times, their families, a renewed focus at the end of life. It is our sincere desire to make each person's last days as memorable and full of joy as possible.
